I. Integrity –

The Commission is **not** likely to be satisfied that the applicant is fit and proper if the assessment of a person against this element would yield any one of the following factors:

- i. The applicant is found to be providing false/misleading information in support of its application.

- ii. It is considered that the interest of customers or potential customers of the applicant would be threatened by the applicant's business operations/viability, including persons holding key positions may be considered to ascertain whether those threats identified would pose a risk to the applicant customers/investors' best interests, including the reputation of Belize as a well-regulated jurisdiction.

II. Financial Stability, Solvency and Financial Control –

The Commission is **not** likely to be satisfied that an applicant is fit and proper should it be that the applicant:

6. CONTINUING REQUIREMENTS
